

# St Alban's C of E Academy

In Association with:  
Manor Multi-Academy Trust

PE policy

# PE Policy

## Aims and objectives

Physical education develops the children's knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. Physical education promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and promotes positive attitudes towards a healthy lifestyle. Thus we enable them to make informed choices about physical activity throughout their lives.

The aims of PE at St Albans's C of E Academy are:

- to enable children to develop and explore physical skills with increasing control and co-ordination;
- to encourage children to work and play with others in a range of group situations;
- to develop the way children perform skills and apply rules and conventions for different activities;
- to increase children's ability to use what they have learnt to improve the quality and control of their performance;
- to teach children to recognise and describe how their bodies feel during exercise;
- to develop the children's enjoyment of physical activity through creativity and imagination;
- to develop an understanding in children of how to succeed in a range of physical activities and how to evaluate their own success.
- to develop competence to excel in a broad range of physical activities.
- to be physically active for sustained periods of time.
- to engage in competitive sports and activities.
- to lead healthy and active lives.

## Teaching and learning style

We use a variety of teaching and learning styles in PE lessons across the school. Our principal aim is to develop the children's knowledge, skills and understanding in fundamental core skills and we do this through a mixture of whole-class teaching and individual/group activities. Teachers draw attention to good examples of individual performance as models for the other children and we encourage the children to evaluate their own work as well as the work of other children. Within lessons we give the children the opportunity both to collaborate and to compete with each other; using and accessing a range of different PE resources.

In all classes there are children of differing physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability and age of the child. We achieve this through a range of strategies:

- setting common tasks that are open-ended and can have a variety of results, e.g. timed events, such as an 80m sprint;
- setting tasks of increasing difficulty, where not all children complete all tasks, e.g. the high jump;
- grouping children by ability and setting different tasks for each group, e.g. different games;
- providing a range of challenge through the provision of different resources, e.g. different gymnastics equipment.

## PE Curriculum Planning

PE is a foundation subject in the National Curriculum. Our school uses the national scheme of work as the basis for its curriculum planning in PE. We have adapted the national scheme to the local circumstances of the school. As required, we teach dance, games and gymnastics at Key Stage 1. In Key Stage 2 we teach compulsory dance, games and gymnastics, plus two other activities: swimming and water safety, and athletics. The governors of the school have decided that we will teach outdoor and adventure activities in Key stage 2. Residential experiences in lower KS 2 and upper KS 2 enhance these experiences. Swimming activities and water safety is introduced in Key stage 2.

## Early Years

We encourage the physical development of our children in the reception class as an integral part of their work. As the reception class is part of the Foundation Stage of the National Curriculum, we relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop confidence and control of the way they move, and the way they handle tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills.

## Key Stage One

Pupils should develop core movement, become increasingly competent and confident and access a broad range of opportunities to extend their agility, balance and co-ordination, individually and with others. They should be able to engage in competitive (both against self and others) and co-operative physical activities, in a range of increasingly challenging situations.

Key stage 1 Pupils should develop fundamental movement skills, become increasingly competent and confident and access a broad range of opportunities to extend their agility, balance and coordination, individually and with others.

They should be able to engage in competitive (both against self and against others) and co-operative physical activities, in a range of increasingly challenging situations. Children at St Albans's C of E Academy will be taught to:

- Master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and will begin to apply these in a range of activities
- Participate in team games, developing simple tactics for attacking and defending  
Perform dances using simple movement patterns.

## Key Stage Two

Pupils should continue to implement and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other.

They should develop an understanding of how to succeed in different activities and sports and learn how to evaluate and recognise their own success.

Key stage 2 Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.

Children at St Albans's C of E Academy will be taught to:

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best
- swim competently, confidently and proficiently over a distance of at least 25 metres
- use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]
- perform safe self-rescue in different water-based situations

The curriculum planning in PE is carried out in three phases (long-term, medium-term and short-term). The long-term plan maps out the PE activities covered in each term during the key stage. The PE subject leader works this out in conjunction with teaching colleagues in each year group.

Our medium-term plans, which we have adopted from the national scheme, give details of each unit of work for each term. These plans define what we teach and ensure an appropriate balance and distribution of work across each term. The subject leader keeps and reviews these plans.

Class teachers complete a daily plan for each PE lesson. These list the specific learning objectives for each lesson and give details of how the lessons are to be taught. The class teacher keeps these individual plans, and the class teacher and subject leader often discuss them on an informal basis.

We plan the PE activities so that they build upon the prior learning of the children. While there are opportunities for children of all abilities to develop their skills, knowledge and understanding in each activity area, there is planned progression built into the scheme of work, so that the children are increasingly challenged as they move up through the school.

### Contribution of PE to teaching in other curriculum areas English

PE contributes to the teaching of English in our school by encouraging children to describe what they have done and to discuss how they might improve their performance.

### Information and communication technology (ICT)

We use ICT to support PE teaching when appropriate. In dance and gymnastics children make video recordings of their performance, and use them to develop their movements and actions. Children use a concept keyboard to record the order of movements in their sequences of work. Older children compare each other's performance from recordings and use these to improve the quality of their work.

### Personal, social and health education (PSHE) and citizenship

PE contributes to the teaching of personal, social and health education and citizenship. Children learn about the benefits of exercise and healthy eating, and how to make informed choices about these things.

### Spiritual, moral, social and cultural development

The teaching of PE offers opportunities to support the social development of our children through the way we expect them to work with each other in lessons. Groupings allow children to work together and give them the chance to discuss their ideas and performance. Their work in general enables them to develop a respect for other children's levels of ability, and encourages them to co-operate across a range of activities and experiences. Children learn to respect and work with each other, and develop a better understanding of themselves and of each other.

## Teaching PE to children with special educational needs

At our school we teach PE to all children, whatever their ability. PE forms part of the school curriculum policy to provide a broad and balanced education to all children. Through our PE teaching we provide learning opportunities that enable all pupils to make progress. We do this by setting suitable learning challenges and responding to each child's different needs. Assessment against the National Curriculum allows us to consider each child's attainment and progress against expected levels.

When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – classroom organisation, teaching materials, teaching style, differentiation – so that we can take some additional or different action to enable the child to learn more effectively. This ensures that our teaching is matched to the child's needs.

Intervention through School Action and School Action Plus will lead to the creation of an Individual Action Plan (IAP) for children with special educational needs. The IEP may include, as appropriate, specific targets relating to PE.

We enable pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our school, for example, a sports event at another school, we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

## Assessment and Recording

Teachers assess children's work in PE by making assessments as they observe them working during lessons. They record the progress made by children against the learning objectives for their lessons and the children's individual building blocks. At the end of a unit of work, teachers make a judgement of attainment against the National Curriculum age related expectations. They record this information and use it to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the child's annual report to parents. The teacher passes this information on to the next teacher at the end of each year.

The PE subject leader keeps photographic and video evidence of children's work (in a portfolio). This demonstrates what the age related expectations are for each year group across the school. Teachers meet regularly to review individual evidence of children's work against the national exemplification material produced by the QCA and the DFES.

## Resources

There is a wide range of resources to support the teaching of PE across the school. We keep most of our small equipment in the PE store, which is located in the hall, and this is accessible to children only under adult supervision. The hall contains a range of large apparatus, and we expect the children to help set up and put away this equipment as part of their learning. By so doing, the children learn to handle equipment safely. The children use the school field/playground for games and athletics activities and the local swimming pool for swimming lessons.

## Health and safety

The general teaching requirement for health and safety applies in this subject. We encourage the children to consider their own safety and the safety of others at all times. We expect them to change for PE into the agreed clothing for each activity area. The governing body expects the teachers to set a good example by wearing appropriate clothing when teaching PE. The policy of the governing body is that no jewellery is to be worn for any physical activity.

## Monitoring and Review

The monitoring of the standards of children's work and of the quality of teaching in PE is the responsibility of the PE subject leader. The work of the subject leader also involves supporting colleagues in the teaching of PE, being informed about current developments in the subject, and providing a strategic lead and direction for the subject in the school. The PE subject leader gives the headteacher an annual summary report in which s/he evaluates the strengths and weaknesses in the subject and indicates areas for further improvement. The PE subject leader has specially-allocated, regular management time in order to review evidence of the children's work and undertake lesson observations of PE teaching across the school.

## Extra-curricular activities

The school provides a broad range of PE-related activities for children at the end of the school day. These encourage children to further develop their skills in a range of the activity areas. The school sends details of the current club activities to parents at the beginning of each term. The school also plays regular fixtures against other local schools. This introduces a competitive element to team games and allows the children to put into practice the skills that they have developed in their lessons. These opportunities foster a sense of team spirit and co-operation amongst our children.

## Specialist Staff

The school uses a range of specialist staff to deliver some of our P.E units of work such as sports coaches and dancers

## Amount of Time

A minimum of 2 hours each week is used for P.E in all phases of the school
